v
ABSTRACT

The study sought to investigate into the role of an information center in effectively promoting human rights issues among human rights organizations in Harare. It was a case study of ZimRights. The study focused on members of ZimRights and users of ZimRights Information Center together with the policy makers of ZimRights. The research instruments used were questionnaires and the interview technique to gather users opinions and opinions of ZimRights policy makers. After the findings were gathered, recommendations were made to the policy makers of ZimRights
