TITLE PAGE

Manual for Writers of Term Papers ,
Theses and Dissertations

Kate L. Turabian

Fifth Edition

Revised and Expanded

by

Bonnie B. Henigsblum

1987

University of Chicago Press

London. Chicago

Other Details

Preliminary pages of this book are 9, marked in Roman numerals, while text pages are in Arabic numerals from 1-300. The book has a select bibliography covering pages 281-284. Its ISBN is 0-226-81625-7 and it is title number 16 in “Chicago Guides to Writing, Editing and Publishing” series. It measures 22.2 cm in height and 17.1 cm in width. Kate L. Turabian designed this manual as a guide to suitable style in the presentation of term papers, theses and dissertations in both scientific and nonscientific fields. Written originally from Turabian’s perspective as dissertation secretary at the University of Chicago, the manual has always championed the cause of the individual producing a finished manuscript, often serving as researcher, writer, typist, graphic artist, proofreader and printer or photocopier operator, all in one. The current edition has retained the format of the previous editions. It remains a reference tool designed to help the writer use whatever methods, materials, or technologies that may be needed to assemble the final manuscript of a research paper.

[25 marks]

SECTION B: Answer any two questions

3. Assess the impact of Online Public Access Catalogue (OPAC) in fostering a wider accessibility of library materials. [25 marks]
4. Critique the view that facet classification schemes are more effective in knowledge organisation, storage and retrieval than enumerative classification schemes.[25 marks]
5. Discuss the importance of providing a detailed description of a document in an information retrieval system. [25 marks]
6. Discuss the relationships among classification, cataloguing and indexing operations, showing the purpose of each in the organisation of knowledge. [25 marks]
